

was sufficient to kill 50 men. One of the most distinguished electricians of the country, who thinks, as most men of science must, that the Doctor was "foolhardy" in submitting himself to the experiment, having expressed a doubt whether he could endure a series of

repent to himself that I have already stated often before, that we did not seek for ourselves or for others any acquisition in America. I added that I hoped the good sense of the people of the United States would do justice to the exaggerations and false suppositions with the aid of which it was sought to mislead and embitter public opinion, and that I counted upon his cooperation to

W. W. Whipple of Adams's Block, in Portland, has had water laid on in his cellar in the above of
